A Most Valuable Agent.

The glycerine employed in Dr. Pierce's medicines greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable demulcent, nutritive, antiseptic and antiferment. It adds greatly to the efficacy of the Black Cherry-bark, Bloodroot, Golden Seal root, Stone root and Queen's root, contained in "Golden Medical Discovery" in subduing chronic, or lingering coughs, bronchial, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a wasting away of flesh, loss of appetite, with weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Queen's root and Black Cherry-bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it must not be expected to work miracles. It will not cure consumption except in its earlier stages. It will cure very severe, obstinate, hang-on, chronic coughs, bronchial and laryngeal troubles and chronic sore throat with hoarseness. In acute coughs it is not so effective. It is in the lingering hang-on coughs, or those of long standing, even when accompanied by bleeding from lungs, that it has performed its most marvelous cures.

Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago, says of glycerine:

"In dyspepsia it serves an excellent purpose. Holding a fixed quantity of the peroxide of hydrogen in solution, it is one of the best manufactured products of the present time in its action upon enfeebled, disordered stomachs, especially if there is ulceration or catarrhal gastritis (catarrhal inflammation of stomach), it is a most efficient preparation. Glycerine will relieve many cases of pyrosis (heartburn) and excessive gastric (stomach) acidity."

"Golden Medical Discovery" enriches and purifies the blood curing blotches, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the native medicinal roots composing this wonderful medicine. There is no alcohol in it.

BLACK HAND MURDERS.

Murder as the climax of a series of threatening letters by the Black Hand will give the newly formed White Hand Society in Chicago its first opportunity to show its strength. Closely upon the receipt of several letters demanding money Joseph Concillo was shot down in the rear of his home Sunday night. Three shots were fired into his body at close range. Death was almost instantaneous. The murderer escaped.

The shooting followed, within a few hours, an attempt to murder Luciano Tavaselli and members of his family in their home. He, too, had received several letters demanding $500. Three shots were fired through the window of his bedroom, but none took effect. Concillo was a young man of small means, but his uncle, Giuseppe Brunscato, is supposed to be well off, and the blackmailer had demanded that Concillo get $500 from his uncle and leave it in a certain place under penalty of death. Previous demands had been made on Brunscato, and his house was dynamited last summer. The White Hand Society was organized last November to check the blackmailers. It was formed by professional and business men. The new organization announced that it would conduct a war of extermination against the Black Hand.

Six Italian members of the "Black Hand" made an unsuccessful attempt upon the life of Antonio De Salvo, a wealthy contractor of Pottsville, Pa., early yesterday morning. Armed with shot guns they surrounded De Salvo's home, and were forcing in the door when Joseph Riotto, a neighbor, fired on them with a shot gun. He was reloading his gun when a volley was fired by the assassins, and he fell to the ground mortally wounded, with his chest and head riddled with shot. De Salvo, on Friday, received a notice signed by the Black Hand threatening him with death if he did not turn over $1,000 to two men whom he would find on a deserted section of road near Pottsville. He ignored the note, and since receiving it has refused to leave the house.

Neglected Colds Threaten Life.

[From the Chicago Tribune.]

"Don't trifle with a cold," is good advice for prudent men and women. It may be vital in the case of a child. Proper food, good ventilation, and dry warm clothing are the proper safeguards against colds. If they are maintained through the changeable weather of autumn, winter and spring, the chances of a surprise from ordinary colds will be slight. But the ordinary light cold will become severe if neglected, and a well-established ripe cold is the germs of diphtheria what honey is to the bee. The greatest menace to child life at this season of the year is the neglected cold." Whether it is a child or adult, the cold slight or severe, the very best treatment that can be adopted is to give Chamberlain's Cough Remedy. It is safe and sure. The great popularity and immense sale of this preparation has been attained by its remarkable cures of this ailment. A cold never results in pneumonia when it is given. For sale by W. F. Creighton and Richard Gibson.

DeWitt's Carbolized Which Hazel Salve is especially good for piles. Sold by W. F. Creighton.

CHARGES AGAINST A JUDGE.

As was stated in the Gazette the voters of Hampton, Phoebus and the little villages along the end of the peninsula have started an agitation looking to the investigation of the character, integrity and moral fitness of Judge J. W. G. Blackstone, of the Eleventh circuit. The resolutions ask that an investigation, with a view to impeachment, be instituted.

The charges contained in the request for the investigation are serious enough to warrant the General Assembly to direct that impeachment proceedings begin at once. The charges in the resolution are neglect of of official duty, incompetency and immorality. The charges do not come as a surprise to people who have been in touch with the affairs of the circuit or who have kept an eye on the work of the Supreme Court of the State when matters from the courts over which Judge Blackstone has presided have been reviewed. He has been reversed in a great number of cases.

During the Pavlinic murder trial the judge is said to have gone to sleep on the bench and to have slept soundly, and that when the case was in progress and a question of law arose one of the officers of the court had to go to the bench and arouse the sleeping jurist.

At another time, during the trial of the Accomac riot cases, when he declined to allow a change of venue in the cases of the three negro men who were accused of being the instigators of that affair, he referred to Governor Swanson by saying that it "was the act of a spectacular governor given to spontaneous combustion."

He refused to allow the men to be taken to another county, and ridiculed the "boy soldiers" whom the governor sent over to preserve the peace and to restore order.

MENAGERIE BEASTS FIGHT.

There was a fight to the death between a Bengal tiger and a leopard in the arena of the winter quarters of the Wallace shows at Peru, Ind., yesterday afternoon. The tiger had been in a bad humor during most of the day, and when turned loose in the arena attacked the leopard, throwing it high in the air and slapping it savagely with his paws. The leopard fought desperately, but appeared to be no match for the tiger.

Animal Trainer Garstang tried to separate the enraged animals, but the tiger turned upon him and he had to flee for his life.

Finally the tiger got the leopard down and was tugging at its throat, when the apparently exhausted animal turned upon its back, with the tiger directly over it. With its hind feet it began clawing at the tiger's breast, and with every stroke the blood flowed in streams. In a few moments the claws of the leopard had reached the vitals of the tiger. The tiger fell over on its side dead. The leopard is badly injured, but it is believed it will recover.

The best remedy known today for all stomach troubles is Kodol, which is guaranteed to give prompt relief. It is a natural digestant; it digests what you eat, it is pleasant to take. Sold by W. F. Creighton & Co.

TUESDAY EVENING, FEB 4, 1908.

ACCORDING to Judge Wentworth, of the Superior Court of Boston, whist is a game of chance and all persons running whist clubs, whether for churches, charitable or other institutions, where prizes are given, are guilty of gambling. This was his decision last week, and under it he found guilty six women who arranged a charity whist party in connection with the aid society of the Main Street Baptist Church, in Boston, and fined them $50 apiece. The women made about $200 by the party. They charged a dollar admission and gave out three prizes. This will be a severe blow to the woman, many of whom will hold that if their little card games are to be broken up life will be deprived of one of its chief pleasures.

GERMANY'S naval programme, involving an expenditure for new ships of $10,000,000 during each of the ensuing ten years, has passed the Reichstag without opposition from any side except the socialists and Poles. If the German people feel like putting a hundred millions into battleships that is their affair; the mischief of it however, says the Philadelphia Record, is that her increase in naval armaments will be an incentive to a dozen other governments to likewise enlarge their war fleets proportionately; and goodness known that no incentives are needed.

THE most extraordinary divorce case that has been aired for a long time is now proceeding before the New York court. The second wife names the first wife as co-respondent, and the defendant alleges that his present wife was the cause of his first wife divorcing him. That comes about as near being polygamy as any domestic disarrangement under the laws can be, and if these people lived in Utah criminal proceedings would have been instituted against them long ago

DESPITE the unfavorable showing of the last quarter of the year, the records of the trust show that its profits for 1907 were $160,984,477 which is over $6,000,000 in excess of the previous high-water mark reached in 1906. No wonder the directors of this trust last week decided to hold fast and make no reduction in the prices of steel products.

GOVERNMENT expenses are increasing by huge jumps, being $11,000,000 greater for January than for December. At the same time, the receipts were nearly $6,000,000 less than for January, 1907. This of course will be used by the "stand patters" as an argument against tariff reductions.

From Washington

[Correspondence of the Alexandria Gazette.]

Washington, D. C., February 4.

"Let us cease fighting. Let organized labor and capital go forward in peace, now that the Supreme Court of the United States has determined the right of each. It would be too bad if the employers are forced to drastic measures to protect their property from criminal practices." Such is the olive branch, raised on the pedestal of a threat, that capital, through its representative, James W. Van Cleave, of St. Louis, president of the National Association of Manufacturers, presents today to labor. Mr. Van Cleave is in Washington to urge Congress to pass the bill providing for a tariff commission. "This decision of the supreme court," said he, "carefully eliminates all the coercive, violent and criminal methods of the American Federation of Labor that have been so prominent in the past. It leaves the frame work of organized labor, and if workingmen would act wisely, they will obey the mandate of the court. Such attitude will deserve and will receive the respect and consideration of their employers. "I rejoice in this decision, for it is the culmination of a life work. It is no surprise. I have always had an abiding faith in the constitution and the law of the country as interpreted by our Supreme Court. I sincerely hope that organized labor will recognize the justice of the decision. Council advises that acts committed in similar situations will make each individual member of the American Federation of Labor liable to criminal prosecution. Workmen in my employ, I am sure, would dislike to go to the penitentiary or sacrifice the savings of a life time, because of some act of President Gompers of the American Federation of Labor in boycotting a manufacturer. Here is something for working men to think about. It would be too bad if the employers should be forced to drastic measures by reason of further violation of their rights."

President Gompers was asked to read the above interview with Van Cleave. "I do not wish to read it," said he, emphatically. "What this man Van Cleave may say is of no interest to me. He is absolutely beneath my notice. You must excuse me, but I will not read nor comment on anything he may have said."

As a result of the sweeping anti-boycott decision by the U. S. Supreme Court a movement has already been started among manufacturers who are threatened to be "unfair list" of the American Federation of Labor, to petition President Roosevelt for relief. Daniel Davenport, one of the attorneys for Lowe & Company of Danbury Conn., the complainant in the case, decided yesterday, is authority for the statement that the matter will be brought to the President's attention in the near future. He points to the paragraph in the recent special message to Congress, in which the President declared he would enforce the law against labor unions as quickly as against the big corporations. That section of the Sherman anti-trust act which provides for the collection of three times the amount of damages sustained by the victim of an unlawful conspiracy in restraint of trade, is now declared to be a valid law by the highest tribunal in the land and will remain so, until Congress shall repeal it. In the opinion of counsel for the complainant, damages could be obtained from the American Federation of Labor by every one of the hundred firms whose names appear on the federation's black list. President Gompers still declines to discuss the decision or to indicate his future line of action. It is considered likely, however, that the energies of the leaders of organized labor will now be concentrated in a determined effort to secure a repeal of the section of the statute upon which yesterday's decision was based. Should the law, as interpreted by the Supreme Court be enforced to its limit against the American Federation of Labor, that organization would be well nigh wrecked.

In response to a request from the National Association of Manufacturers, representatives of which are now in this city, and which represents most of the large business concerns of the country, the Senate committee on finance today adopted an unusual course. It not only agreed to receive a delegation from the association at 4:30 o'clock this afternoon for the purpose of talking over the necessity of a revision of the tariff in many particulars, but it appointed a subcommittee to meet them. This subcommittee is composed of Senators Burrows, Hale, Hopkins, Daniel and Teller. The three republican members of the subcommittee are pronounced "stand-patters," while the democrats are in favor of revision. The probabilities are that the committee will tell the associations that it is impossible to attempt the revision of the tariff at this time just on the eve of a presidential election.

The President will tomorrow receive a delegation of prominent business men who are coming to urge him to appoint a tariff commission. The commission they wish named shall not readjust the schedule itself but instead shall be composed of experts who will coach Congress on the subject.

OLD BANKING FIRM FAILS.

Judge Gorter in Baltimore last night signed an order appointing receivers for the banking firm of Wilson, Colston & Co. Mr. Edwin G. Baetjer, of the law firm of Venable, Baetjer & Howard, and Mr. Joseph Packard, former president of the school board, were named.

The fact that the firm was in trouble has been known in local banking circles for some days. It was thought, however, that it would be able to tide over its difficulties.

The drastic resort of a receivership, it was said, was contingent on the firm raising a specified sum within a limited period. Part of this amount was secured from outside friends, but the limit required was not reached and the receivership was decided upon.

A rough estimate places the assets of the firm of $870,000 The liabilities are $955,000, of which $175,000 is in unpledged securities held and $780,000 for loans to institutions on securities owned by it or carried for customers.

The failure is attributed to the recent decline in the values of the bonds of railroad properties in the south.

DEATH OF CAPTAIN WISE.

After an illness which had lasted since last December, Captain George D. Wise died at the William Byrd Hospital in Richmond shortly before 1 o'clock this morning. George Douglas Wise was born in Accomac county in 1835, his father being Tully Wise, also a native of Accomac county, and a prosperous planter. He served during the war in the Confederate army, holding many positions of honor and was severely wounded in battle. At the close of hostilities he returned to Richmond and began the practice of law, and at once rose to prominence at the bar. By successive re-elections he filled the office of Commonwealth's Attorney from 1870 to 1880. Elected to Congress from the Third district of Virginia in 1880, he was returned by his constituents without interruption until 1894.

QUIET IN PORTUGAL.

The retirement of Premier Franco, of Portugal, who feared his continuance in office might plunge the country into a rebellion, seemed to give promise of some political tranquility for Portugal.

A new cabinet was formed yesterday with Rear-Admiral do Amaral, a well-known naval figure, as president. On the whole, it is liberal, but with monarchical tendencies.

The investigations of the police show that the murders were carefully planned. On Saturday the assassins met secretly in the back room of a cafe and there laid out every step of the plot, which they were enabled to do because all the details relating to the home coming of the king had been made public. To each was assigned a post in the work shooting down the members of the royal family, but lots were drawn for the selection of each particular victim. Those who drew Queen Amelie and Prince Manuel failed to carry out their bloody task.

Arrests are being made by the wholesale at Lisbon, and all suspicious persons still at liberty are under police surveillance. Up to 4:30 p. m. there had been no recurrence of disorders in Lisbon. The Portuguese frontier is being closely regarded to prevent the escape of suspects. The authorities are maintaining a strict censorship on all outgoing telegraphic messages.

The body of the king is clad in the uniform of the commander-in-chief of the army, while the prince wears a uniform of a captain of the Second Lancers. Several masses for the repose of the souls of the departed already have been said in the mortuary chamber. The funerals will be held February 8, and the bodies will lie in state, probably being inning today.

New York Stock Market.

New York, Feb. 4—The recovery that was in progress yesterday afternoon in the market continued this morning and a number of stocks, including those regarded as market leaders, made advances ranging from fractions to over 1 point. Government bonds unchanged; other bonds firm.

After the first hour the market became extremely dull.

News of the Day.

After blowing open the grocery house of Mr. Riskan at Goldfield, N. J., today burglars secured $600 in cash besides several checks and made their escape.

Harry K Thaw's attorneys are to begin action looking to his release from Matteawan within a week. Evelyn Thaw spent an hour with her husband yesterday.

The most intense suffering prevails today among the poor of New York, owing to the cold weather. Thousands of people, without fuel and with little food are facing death.

A bill creating a bureau of postal savings was introduced by Senator Burkett yesterday. Under the bill postoffices of the first, second and third class are empowered to receive deposits.

The First National Bank of Brooklyn, N. Y., which suspended and was placed in the hands of a receiver, October 25, 1907, having complied with all the conditions imposed has been given permission to reopen its doors for business on Monday morning, February 10.

Fourteen passengers of a crowded Homestead electric car were slightly injured today, when a passenger train of the Pittsburg, Virginia and Charleston Railroad crashed into it. The accident, it is said, was caused by slippery rails and defective brakes.

The Pullman Palace Car Company yesterday distributed $174,850 among 3,770 employes of its car service department. The bonus amounts to one month's salary for every conductor and porter who continued on the payroll of the company throughout 1907 and escaped demerits. It is the intention of the company to grant the bonus of one month's pay each year hereafter to such conductors and porters as make a clean record throughout the year.

The impending passage of the American battleship fleet through the Straits of Magellan and the widespread discussion among navigators regarding the dangers of that passage, lend unusual interest to the announcement that a company is being organized in Denmark to establish a complete towing service in those waters. It is estimated that an average of 10 vessels with 300 men are lost in the strait every year. It sometimes takes sailing vessels four to six weeks to round the cape, while they could be tugged through the strait in 36 hours.

CONGRESSIONAL.

Senator Piles, of Washington, yesterday addressed the Senate on the proposed Alaska-Yukon Exposition at Seattle.

The urgent deficiency bill was reported and will be called up for consideration today.

In the House the report of the commission sent by the President to investigate the conditions at Goldfield, Nevada, was received by the House.

The House went into the committee of the whole for consideration of the Indian appropriation bill.

A political debate was started by Mr. Townsend, of Michigan, who claimed for the republican party credit for all important legislation in the last fifty years.

Mr. Burke Cochran replied to Mr. Townsend. He denied the accuracy of Mr. Townsend's statement, and said that since the beginning of the republic there had not been a single policy prominently incorporated into law that was not of democratic origin.

Wild democratic applause greeted Mr. Cochran when he remarked that the policy of Jefferson, adopted to avoid war with France, had been applied by the republicans "to the conquest of the Philippines and the purchase of men." He compared the Philippine acquisition with the Louisiana Purchase, "one glorious possession of our country," and said the republicans were so sick of the Philippine bargain they would be willing to blame Providence for it.

Mr. Cochaan said:

"The message which the President sent here Friday raises a question that goes to the very existence and growth of civil government. The first part of the message contains complaints," he continued. "After we pass that portion we come to the part where we all applauded and that was the paragraph that related to charges that business distress was brought on by the government, and that the knife should be used freely in cutting out rottenness."

Mr. Cockran grew vitriolic in his denunciation of bank presidents and corporation officials who had been guilty of illegal acts. He first referred to the insurance investigation, and in speaking of the recent financial crisis said it had been caused by successful revelation of depravity in high places in the financial world. "Was the President responsible for that?" he inquired. The whole thing, he declared, grew out of a quarrel of the plunderers of insurances companies over the distrubution of the spoils. So deeply had the public conscience become appalled, he said, by the spectacle of unpunished crime that never once did it seem to dawn upon anyone, publicists or journalists, or prosecuting officers, or even politicians, "that instead of certain corporation heads being suffered to do some housecleaning in the corporations they had pillaged, they ought to be sent to do some cell-cleaning in the penitentiary."

"These gentlemen," he said, "when their rapacities had exhausted the supply and there was nothing left to steal, did not even surrender control of the corporations they wronged. "They do not," he continued, "flee from justice fearing its word, but they go into a court of justice and obtain its protection to obtain further authority over the very trusts they had betrayed."

Regarding recent bank failures in New York, Mr. Cockran said that not one of them failed through error of judgment. "Everyone of them," he said "was ruined through crime." He charged that the officers who were being pursued before grand juries and criminal courts actually had set themselves to work to raise funds to reopen the concerns and induce depositors to sanction delay in the payment of their money, and," he said, "they are treated as saviors of society because they hadn't blown up the building in addition to pilfering the books."

Mr. Cockran, declared that with the last President's message as a guide Mr. Bryan would be the foreordained champion of law and order.

Speeches also were made by Colonel Hepburn defending the administration, and by General Sherwood attacking some of Mr. Roosevelt's policies.

Paying the penalty of murdering a man in a quarrel over ten cents, George Stewart, colored, was put to death in the electric chair at Trenton, N. J.

Virginia News.

J. P. Coates died suddenly yesterday afternoon at his home, near Calverton, at an advanced age. He is survived by four sons and two daughters.

Isaac R. McIlwee, a prominent farmer of Carmel, Shenandoah county, died yesterday at his old home place in Frederick county, from dropsy, aged fifty-three years.

G. Burnley Sinclair has been unanimously indorsed by the Charlottesville bar for judge of the Corporation Court to fill the unexpired term made vacant by the death of Judge Morris.

Mrs. L. A. Colston, wife a well-known resident of Summit Point, W. Va., died Sunday from cancer, aged seventy-five years. She leaves her husband and a large family of children. She was formerly Miss Shepherd, of Virginia.

Capt. Frank Dean, sixty-five years of age, a Confederate veteran, dropped dead on the street in Richmond last night. He was a commission merchant, and had lived in Richmond all his life. Capt. Dean was an uncle of Mrs. Claude A. Swanson, wife of the governor.

The trial in the federal court in Richmond of Frank P. Burke, postoffice official, charged with the larceny of valuable packages in transit through the mails, came to an end yesterday afternoon, the jury failing to reach an agreement. The prisoner was bailed for a new trial at the April term.

For allowing Lily Robinson, colored, a trusty penitentiary prisoner, to escape while she was engaged in cooking dinner for other jail prisoners, Jesse Lupton, jailer at Berryville, has been fined $50 by Magistrate Crow. Jailer Lupton has also been required to deliver the fugitive to the Clarke county jail by the first of next month.

Cheers and vigorous applause echoed through the Senate chamber in Richmond last night when Gov. Swanson, on the witness istand before the joint committee of investigation, stated firmly: "I will stake the future success of my administration on Judge Rhea's ability to fulfill the requirements of a member of the State Corporation Commission."

The Legislature.

SENATE.

The Senate yesterday passed two bills, one accepting grants made by the federal government for the use of agricultural experiment stations and the other to declare what is equivalent in city or town to personal service of notice of protest—and then spent an hour in discussing a bill to allow justices of the peace $1 a day when sitting to hear civil cases.

The Senate committee on public institutions and education has reported with amendments the Folkes bill, creating the office of inspector of prisons. The amendments cut down the salary of chief inspector from $4,000 to $3,000 per annum, and provide for only one assistant at $2,500.

HOUSE.

Mr. Cooke, of Norfolk, introduced in the House a bill to amend and re-enact section 823 of the code relative to councilmen and other city officers forbidden to have interest in contract with, or claim against, their city; such contract to be void.

By a vote of 60 to 19, the House adopted an amendment to the bill which provides that all executions of State criminals take place at the penitentiary. The amendment provides that in future the electric chair shall replace the gallows as the method of execution and provides for the installation of the chair. The bill will be put on its passage today.

The House passed, without debate, the Adams-Churchman measure, which amends the existing laws as to the duties of the Commissioner of Agriculture, and the Board of Agriculture, and practically abolishes the position of secretary of the board. The measure, as finally adopted, had been slightly altered from its original form, so as to meet the wishes of certain members of the board who had first objected to it. It, therefore, may be styled a "compromise" bill, though it greatly increases the powers of the commissioner and clearly defines his authority. Under the new bill, the secretary of the board, whose duties are imposed, for the most part, on other clerks in the department, will receive only $100 per annum.

The Legislature elected four judges for Corporation Courts for the full term of six years. They are Judge J. T. Barham, of Newport News; Judge Waller R. Staples, of Roanoke; Judge William I. Clopton, of Manchester, and Judge William M. Atkinson, of Winchester. All four were elected without opposition.

The matter of electing a judge of the Corporation Court of Charlottesville and Buena Vista to succeed Judge George W. Morris, who dropped dead suddenly on the streets of Charlottesville several days ago, will engage the attention of the democratic members of the general assembly during the present week.

The house passed a bill to amend an act to authorize the courts of the Commonwealth to pay money to infants entitled to it, or to their parents in certain cases, without the intervention of a guardian, approved April 2, 1902, in respect to the amount of money that may be paid to the infants entitled to it, or to their parents in certain cases.

STEAMER BURNED.

In the midst of a wild blizzard yesterday afternoon, the steamer St. Cuthbert was burned to the water's edge off the Nova Scotian coast. Fifteen members of the crew were drowned by the swamping of a small boat, in which they attempted to leave the vessel, after fire had broken out.

The other thirty-seven members of the crew, including the captain, were rescued by the White Star liner Cymric. After taking off the survivors, the Cymric abandoned the burning steamer and proceeded to Boston. The Cymric stood by for 9 hours, during a strong gale, heavy sea, and snow squall.

The St. Cuthbert, owned by the British and Foreign Steamship Company, of Liverpool, sailed from Antwerp on January 19 for New York.

The steamship St. Cuthbert was comparatively a new vessel.

Today's Telegraphic News.

Conditions in Portugal.

Lisbon, Portugal, Feb. 4.—More than 200 arrests have been made since Saturday night of persons suspected of complicity in the plot which cost the lives of King Carlos and Crown Prince Luiz.

The police lack proof of the details of the plot, but still adhere to the opinion that the editor of one of the leading Lisbon revolutionary newspapers was at the head of the organization, which is now almost certainly known to have planned the extinction of the dynasty and the establishment of a republic.

Fears of an immediate uprising have been largely dispelled by the decision to re-establish the constitution as soon as the public safety permits. Suspended newspapers will then be permitted to resume and many of Franco's political prisoners will be set free.

The Marquis of Soveral, Portugese Ambassador to England, who has been in Lisbon for some time, is expected to reach London tomorrow with detailed information for the British government. It is understood his information shows that English interference is unnecessary to preserve the dynasty.

The date of the funeral of the late king and prince has been changed from the 10th to the 8th instant.

London, Feb 4.—Trouble is not over in Portugal. Official dispatches assert, indeed, that everything is quiet. Enough "inside" information is leaking out, however, to make it clear that the new government is having hard work to restore order.

The censorship is so rigid that the rest of Europe knows very little of what is going on in the little kingdom. It is certain that the revolutionists dominated several regiments in the Portugese army just before Saturday's assassination. There seems small doubt that a military outbreak was imminent and the general opinion is that danger still exists of outbreaks of disloyalty among the troops.

Side by side in the chapel of Necessidades Palace the murdered King Carlos and Crown Prince Luiz of Portugal lie in state. Many masses have been said for their souls.

Thaw Demands Transfer.

Matteawan, N. Y., Feb. 4.—Harry Thaw has made another imperative demand upon his attorneys to secure his immediate release from the State asylum for criminal insane. As a consequence a writ may be sought within the next few days by Lawyers O'Reilly and Peabody of a Supreme Court Justice in Duchess county, probably in Poughkeepsie, seeking to have Justice Dowling's commitment amended to remove Thaw to a private institution.

Martin W. Littleton for professional reasons, as well as because he wants a rest, is unwilling to take immediate steps for Thaw's release. He thinks Thaw ought to stay in the asylum for at least two months.

Thaw's demand for release or a transfer to a private institution is based upon the belief that if he remains here for even a month he will become insane in fact if he is not already so. The antics of the madmen associated in the same ward with him have got on Thaw's nerves.

Evelyn has joined her husband in demanding immediate steps to release him. Her first visit to the asylum caused Evelyn to collapse.

Thaw's mother is expected at the asylum today.

Martin W. Littleton, chief counsel for Harry K. Thaw in his trial for the murder of Stanford White, made it plain today that there will be no application made by him in the immediate future for a writ of habeas corpus to secure Thaw's release from Matteawan.

Sanguinary Battle.

Tangier, Morocco, Feb. 4.—Ten thousand Moors were killed or wounded yesterday in a battle with the French near Setthe, according to reports just received here from the front. The French casualties are placed at 160.

The battle was the fiercest fought since the outbreak of the present hostilities between the French troops and the Moorish tribesmen. The uprising was so sudden that the French were caught almost wholly unprepared and narrowly escaped annihilation.

It is estimated that 25,000 tribesmen attacked the gallic force, a comparatively small body of troops. The natives fought with the greatest desperation, charging again and again to the very mouths of the cannon and after exhausting their ammunition striking furiously at the artillery men with swords and clubs.

The French mowed them down whole ranks at a time as they charged until the ground was literally heaped with the dead, dying and wounded.

The French force, though badly shattered, is following up its victory and cutting down the fleeing moors as fast as they can be overtaken.

Skin Disease of Twenty Years' Standing Cured.

I want you to know how much Chamberlain's Salve has done for me. It has cured my face of a skin disease of almost twenty year's standing. I have been treated by several as smart physicians as we have in this country and they did me no good, but two boxes of this salve has cured me.—Mrs. Fannie Griffen, Troy, Ala. Chamberlain's Salve is for sale by. W. F. Creighton and Richard Gibson.

Uncle Remus's Magazine for February has been received from the publishers in Atlanta; it is an up-to-date and comprehensive issue. Joel Chandler Harris contributes three characteristic pieces of work—an essay "Concerning books and Critics," an "Uncle Remus rhyme," and an account by Mr. Billy Sanders of his visit to the White House. An article of historic value is the second installment of "What I know of the Ku Klux Klan." A character sketch of David Warfield is given and "A glance in passing" and "The open house," are of more than usual interest. Excellent fiction, good verse, book reviews etc. complete this number.

Office of Constructing Quartermaster, U. S. Army, Fort Washington, Md., January 30, 1908—Sealed proposals in triplicate will be received at this office until 2 p. m. Army, Fort Washington, Md. feb4,5,6,7 mar2,3.

Sixtieth Congress.

Washington, Feb. 4.

SENATE.

During a debate in the Senate on the Panama canal, Senator Teller this afternoon predicted that the enterprise could not be completed for $500,000,000 and declared that it would later have to be abandoned, because the locks would make it not feasible.

HOUSE

Upon motion of Mr. Cousins the House today adopted a resolution of sympathy with the people of Portugal over the assassination of their king and crown prince, as follows:

"Resolved, That the House of Representatives of America has heard with profound sorrow of the assassination of King Carlos and Crown Prince Luiz, and tender to the people of Portugal its sincere sympathy in their national bereavement.

"Resolved, That a copy of these resolutions be sent to the President of the United States with the request that he communicate the same to the government of Portugal."

The House of Representatives today passed a rule allowing the two Philippine commissioners sent here by the Philippine assembly the privileges of the floor and of debate.

The pension appropriation bill, carrying a total expenditure of $150,869,000, for the fiscal year ending June 30, 1908, and so amended as to abolish eighteen pension agencies and to consolidate the whole pension distributing system in one central agency at Washington, was today reported favorably by the committee on appropriations.

To John Sharp Williams, minority floor leader, in the House of Representatives, fell the task today of fixing up the muddle the democrats got into yesterday when General Sherwood (Dem. Ohio) roasted Roosevelt, and Representative Bourke Cockran (N. Y.,) lauded him to the skies. Mr. Williams began by saying he differed from Colonel Bourke Cockran (Rep Iowa), who yesterday approved the message in toto. "I consider it looks toward centralization and has federalistic tendencies dangerous to the American republic." Mr. Williams read from the President's message about the Santa Fe rebating, and the endeavors to send the big responsible officials to jail. "Ah, but did the President try to put Paul Morton behind prison bars for continual violation of these laws?" asked Williams. The democrats shouted their approval of the jab. "No, Morton went from the Cabinet to a fat commercial job." Grand larceny seemed to be a hereditary habit of the republicans, Williams went on. He accused them of stealing Grover Cleveland's gold standard platform and now of purloining Bryan's policies. Williams devoted some time to financial legislation to prevent another "republican," panic. He denounced the Aldrich bill as a "railroad hand credit strangling thing." He said the financial laws were republican measures and declared that the republican party must answer to the country for the panic.

Democratic Caucus.

Washington, Feb. 4.—The Senate democrats met in conference today for the purpose of considering their attitude on pending financial legislation. There was a very general interchange of views, but, as was the case at the preceding meeting ten days ago, no definite agreement was reached on the question of whether they should support a substitute measure for the Aldrich bill or whether they should content themselves with merely offering amendments to its various sections. It is probable that the latter course will be pursued. Senator Bailey, nevertheless, intends to offer his measure as a substitute and force a vote upon the question as to whether the proposed emergency circulation should be issued by the national banks, as the Aldrich bill provides, or by the national treasury, as he contends is proper. Probably a majority of the democrats agree with Bailey that it is the function of the national government to issue currency but there are some of them who object to the plan because it is favored by Bryan and they do not want to be put in the attitude of supporting a Bryan-dictated policy as they claim this is.

Will Not Resist Wife's Suit.

London, Feb. 4.—The Earl of Yarmouth has decided not to resist the suit brought by his wife, formerly Miss Alice Thaw, of Pittsburg, for annulment of their marriage, provided the countess will make adequate financial settlement on him. The legal advisors of the Earl and Countess are discussing the question of such a settlement today. It is understood the latter is disposed to accept her husband's proposition if he will limit his demands to a reasonable amount. The beginning of the trial is set for tomorrow.

Mr. Bryan In New York.

New York, Feb. 4.—Mr. William Jennings Bryan will be the chief speaker tonight at Carnegie Hall before the Civic Forum, and he will, it is announced today, handle the recent financial scandal in characteristic manner. His topic is "Thou Shalt Not Steal," and he has promised to make it hot for "the predatory rich" and all "malefactors of great wealth" as well for "the subsidized press." J. P. Morgan is to occupy one of the boxes. Tomorrow night Bryan will address the Economic Club, speaking on finance.

Boat Race.

Punta Arenas, Feb. 4 —The boat race for the Jamestown cup between the crews of the American battleship squadron is the feature of today's festivities here.

The commanding officers of the United States ships, American minister to Chili Hicks, secretary of legislation James and American Consul to Valparaiso Winslow were guests of Admiral Simpson of the Chilean navy aboard the Chicabuco last night.. Chile allowed $5,000 for the entertainment, the most elaborate ever given at Punta Arenas.

THE DOCTORS AGREE.

Two Physicians Both Agree on the New Scientific Dandruff Treatment.

Dr. J. M. Powell, of Spokane, Wash., says: "Herpicide has given good satisfaction in my family for dandruff."

Dr. W. G. Alban, of Walla Walla, Wash., says: "I find Herpicide all that is claimed for it as a dandruff cure. I shall prescribe it." Dandruff is a germ disease and you can't cure it unless you kill the dandruff germ; and you can't do that unless you use Newbro's Herpicide, the only preparation in the world that destroys the parasites. A delightful hair dressing; allays itching instantly; makes hair glossy and soft as silk. It is a sure dandruff destroyer.

ATTEMPTS SUICIDE.

Suffering from the effect of carbolic acid she is said to have swallowed while in a fit of anger, a young girl, giving her name as Mary J. Bayliss, and her address as 523 south Alfred street, Alexandria, was removed from 216 John Marshall place, northwest Washington, yesterday afternoon, to the Emergency Hospital. The physicians succeeded in bringing the young girl out of danger, and she later left the hospital. It was subsequently learned that the girl had given the wrong name.

A woman residing at the John Marshall place house, who claimed to be the mother of the girl, said her daughter's name was Mamie Corrigan, and that she was sixteen years old. The girl, she said, had taken the poison while in a fit of anger, because she had been requested by her mother to seek other employment than that at which she is at present engaged.

There is another version of the affair. It is said that Miss Corrigan was recently engaged to be married to a young man named Guy Furtner. The engagement had been broken off. According to a statement made by the young man Miss Corrigan attempted to commit suicide recently in Alexandria by swallowing poison. He says he was with her and another young woman yesterday when she attempted to swallow carbolic acid, and that he knocked it from her hand before she swallowed a fatal dose.

CONFEDERATE VETERANS.

The regular monthly meeting of R. E. Lee Camp, held at their hall last night, proved to be an unusually interesting one.

A communication from the Grand Commander of the State announcing the death of Col. Wm. E. Cutshaw, a member of the Historical committee, and the appointment of Capt. Gordon McCabe to fill the vacancy, was read; also the appointment of Capt. Wythe B. Graham to the position of aide-de-camp to the G. and Commander.

Two new members were elected—H. N. Brawner, of Company A, Mosby's battalion, and Beverly R. Mason, Black Horse Cavalry, Company H, 4th Virginia Regiment.

The committees appointed to prepare resolutions on the death of their late Comrades Thos. Perry and W. W. Sherwood made their reports which were ordered to be spread upon the minutes and copies sent to the families of the deceased.

The committee on the observance of Gen. R. E. Lee's birthday made its report and was discharged.

The committee on legislation in reference to the Soldiers' Home at Richmond also made its report.

Chas S. Taylor was elected financial secretary and treasurer.

A committee on library was appointed. It consists of Comrades John R. Zimmerman and Edgar Warfield.

APPOINTED CLERK.

Judge Edmund Waddill, of the United States District Court, yesterday appointed Joseph E. Brady clerk of the court at Richmond, to succeed the late George E. Bowden, of Norfolk, together with the following deputies: D. Arthur Kelsey, at Norfolk; W. B. Walker, at Norfolk; R. E. Lamers, at Richmond; R. P. W. Garnett, at Alexandria.

In appointing Mr. Brady Judge Waddill stated that he was satisfied that the plan of having a single clerk for the entire district, with deputies at each place of holding the court, would promote efficiency of the service.

Mr. Garnett has acceptably filled the position of clerk in this city for some time and his reappointment is very gratifying to his friends here.

WHOLESALE DISCHARGES.

At the Washington navy yard 800 of the 1,800 machinists usually employed there have been or are to be dismissed. About 650 men have been discharged so far. It is said 300 men will have to leave in the next few days. Seventy-five men were dismissed at 4 o'clock yesterday, and seventy-five more were discharged last night, making 150 men gone in one day. The only reason advanced by the commandant of the navy yard is that the navy yard is short of funds at present.

In the gun factory the axe has fallen hardest. There are few left at work there. A number of Alexandrians who have for years been employed at the Washington navy yard have recently lost their positions.

POLICE COURT.

[Justice H. B. Caton presiding.]

The following cases were disposed of this morning:

Harry Nelson, Richard Gray, Edward Green and Geo. Jackson, all colored, charged with conducting policy, were fined $20 each.

George Young, Noah Green and Walter Thomas, also colored, charged with unlawful gambling, were fined $10 each.

James Self, arrested on complaint of H. L. Strider, was sent to jail for 20 days.

Ethel Williams, charged with disorderly conduct, was fined $5.

John Shepherd, colored, charged with disorderly conduct, was fined $5.

THE WEATHER.

The wind which was from the south yesterday, bringing milder conditions, veered to the northwest at the close of the day, when the weather became colder. The mercury at an early hour this morning had fallen to 17°. Considerable ice formed during the night, the river being covered from shore to shore. The weather has been fair and mild today.

Bert Barber, of Elton, Wis., says: "I have only taken four doses of your Kidneys and Bladder pills and they have done for me more than any other medicine has ever done." Mr. Barber refers to DeWitt's Kidney and Bladder Pills". They are sold by W. F. Creighton & Co.

All want the best. The Hess, Walk Over, Red Cross, and Queen Quality Shoes are to be had at J. A. Marshall & Bro's., 422 King street. nov21 tf

POLICY PROMOTERS FINED.

Eleven negroes, who had been arrested yesterday afternoon by Chief Goods, acting Lieutenant Roberts and Officers Nicholson, Beach and Gill at a house on the corner of Princess and Pitt streets, charged with promoting policy, were arraigned before Justice Caton in the Police Court this morning. Richard Gray, Edward Green and George Jackson pleaded guilty and were fined $20 each. Harvey Nelson was also fined $20, and George Young, Noah Green and Walter Thomas were assessed $10 each. The others were dismissed. The officers captured a considerable quantity of paraphernalia used in policy-playing, together with between $40 and $50 in small change. The accused were represented by Mr. R. D. Brumback.

MOUNT JEZREEL CHURCH.

The Corporation Court room was crowded this morning with members of Mount Jezreel Church, colored, on South Payne street, and others to witness the injunction proceedings instituted about a week ago to restrain Rev. Alexander Willbanks from conducting services in that church in the capacity of pastor. The keys of the church are in the hands of City Sergeant Cox. After both sides to the controversy had been heard, it was decided by Judge Barley to submit the matter to the qualified members of the church, a majority of whom are to manage the affairs of the church.

RAILROAD CUT-OFF.

The Southern Railway Company will place their cut-off about three miles west of this city. The point selected is in the vicinity of the double bridge, or where the tracks of the Washington-Southern road pass over those of the Southern. Six locomotives will be used in pulling Southern trains from that point into Washington. The engines which bring the trains from Monroe will there be detached and brought to the Duke street depot where all repairs will be made. The other rolling stock of the road will also be overhauled there.

MEETINGS.

At the annual meeting of the Commercial Automobile and Supply Company held in this city yesterday evening the following directors were elected: C. E. Wood, Charles Eckstein, Henry Denham, H. F. Woodard and T. H. Melton.

The Sherman Apartment House Company also met in this city yesterday evening and elected the following directors: J. I. McClellan, E. O. Wagenhurst, T. F. Schneider, J. F. Wood and R. F. Catlin.

MASONIC BANQUET.

The arrangements for the annual banquet to be given by Alexandria-Washington Lodge of Masons on the night of February twenty-second have about been completed. The speakers will be Speaker Cannon, Representative Champ Clark and Mr. Clarence Bennett, of New York, author of "The Holy City." It is understood the admission to the banquet will be by card only, except to members of the two Alexandria lodges.

SENT TO JAIL.

James Gaskins, of Jeffersonton, Culpeper county, who carries the mail between that place and Calverton, was brought before U. S. Commissioner R. P. W. Garnett this morning by Postoffice Inspector Barbour charged with opening a mail package mailed at Markham and taking various articles therefrom. Not being able to give bond he was sent to jail for a further hearing.

REVIVAL MEETINGS.

The revival meeting at the First Baptist Church is growing in interest and results.

There will be a mothers' meeting in the Sunday school room of the church, Wednesday afternoon at 3 o'clock, at which the mothers are especially requested to be present. Mr. Dudley will have something very important to say to them.

DRAMATIC CLUB.

A meeting of the Lyceum Dramatic Club was held in the Lyceum Hall last evening. After transacting routine business the meeting adjourned to Rammel's restaurant where a bountiful supper had been prepared. During the evening speeches were made by Messrs. Thos. C. Hoy and C. A. Rothmund. Several out-of-town guests were present.

FOR THE PENTENTIARY.

William Cook, colored, of Herndon, Fairfax county, who was recently sentenced to one years's confinement in the penitentiary for forgery, and Garnett Lee, also colored, of Falls Church, who was given an eight-year term for highway robbery, passed through this city this morning for Richmond. They were in charge of W. C. Cross.

CORPORATION COURT.

[Judge L. C. Barley presiding.]

Annie E. Webster, guardian, vs. Mary P. Webster et al.; decree appointing H. W. Smith guardian ad litem.

The matter of the Mt. Jezreel Baptist Church, colored, was turned over to the members of that church for settlement among themselves.

ENTERTAINMENT TONIGHT.

Prof. Maluf and his sister will give an entertainment tonight in the lecture room of the M. P. Church, which will consist of a trip to the Holy Land, in which oriental customs will be portrayed. There will also be stereoptican views of the Holy Land and of the San Francisco earthquake.

German Humor.

The tendency of the German comic papers to employ continuously the same characters as "producers of mirth" is the subject of an article in a Berlin paper by Ludwig Bauer. The writer mentions as the most conspicuous of the funny figures the absent-minded professor whose habitual umbrella losing proclivities have made generations laugh. This figure had its origin at a time, he says, when the man of letters was a helpless person in the active world—a dreamer dwelling in realms away from the actual and therefore blind to his surroundings. In this form he has been represented in the comic papers. But Germany, he thinks, not the professor, has been and is being caricatured. The professor today must be a wide awake man, for science is no longer an island. These are not the days for sleep and for dreams. Another abused character is the lieutenant who, having no foe to fight, is always shown as making conquests where Amor has command. The old maid is another of the stock figures, and one of equal importance is Mr. Newlyrich. Of the latter it is said: "He is always full of fear and suspicion. He knows that he has been misplaced, and he sways from side to side like a timid rope walker. This makes him really funny, and we must laugh at his antics."

Too Slow to Be a Soldier.

In a room on the top floor of a large factory a boy was amusing himself by going through the bayonet exercise with a long handled brush in lieu of a rifle. His boss, coming quickly upon him, gave him a box on the ear for wasting his time. The sudden blow caused the lad to lose his balance and fall down the hoist shaft, but fortunately he kept his hold on the brush, the handle of which, getting across the shaft, broke his fall and enabled him to grasp the chain, down which he slid in safety. The boss was horrified at the effect of his action and rushed breathless and gasping with fear down the eight flights of stairs to the basement, expecting to find a mangled body for which he would have to account. He was, however, just in time to see the lad drop on his feet unharmed, so, recovering his self possession and his breath, he exclaimed:

"Want to be a soldier, eh? Well, you're too slow for that. Why, man, I can walk down all those stairs quicker than you can fall down the hoist shaft."—London Answers.

Toward the Pole.

Ice eight feet thick on the ocean and snow falling even in summer—such is the weather experienced in the polar regions. When the air is dry and still it is remarkable how low a temperature can be borne with ease. One explorer tells us that with the thermometer at 9 degrees it was too warm for skating. The summer weather in this region is, moreover, in some respects pleasant and healthful. Within the arctic zone there are wonderfully colored sunrises and sunsets to be seen. They are both brilliant and impressive. But the nights—the nights are monotonous and repelling. A rigid world buried in everlasting snow, silent save for the cracking of the ice or the wail of the wind. Travelers in these regions experience many discomforts. The keen air causes their skin to burn and blister, while their lips swell and crack. Thirst, again, has been much complained of, arising from the action of the low temperature on the warm body.

Only Night Air at Night.

Speaking of Florence Nightingale and her efforts to keep the world healthy, it seems pertinent to make special mention of her mission in behalf of the open window at night. In the early years of her labors much unintelligent opposition to this method of ventilation because of the supposed harmfulness of the night air was expressed, but Miss Nightingale had one stock argument in support of her position, it being the question, "What air shall we breathe at night but night air?" It was unanswerable from her opponents' point of view, even if it did not always convert them, but it did lead a countless number into saner ways of living and along the way to the present methods of treating tuberculosis.—Boston Transcript.

Garantized Oils.

The following advertisement of olive oil is the work of a Rio Janeiro firm:

"Ours olives oils have garantized of fitts quality. Diligently fabricated add filtrated, the consumer will find with them, the good taste and perfect preservation. For to escape to any counterfeit, is necessary to requiere on any botles this contremarc deposed conformably to the law. The corks and the boxes hare all marked with the fire."—Case and Comment.

The Housekeeping Instinct.

A bright little girl who had successfully spelled the word "that" was asked by her teacher what would remain after the "t" had been taken away.

"The cups and saucers," was the prompt reply.

Self Composed.

She—He is a person of perfect ease and possession and is thoroughly at home anywhere. He—Yes, he even has the faculty of making you feel a total stranger in your own house.—London Tit-Bits.

ELGIN'S LOSS $100,000.

This Was In the Six Years the Town Owned Its Electric Light Plant.

A municipal electric light plant was installed in 1888 and leased to a private company in 1904. It is estimated that the loss during this period was at least $100,000 as compared with what it would have cost to light the streets by contract. A city official, quoted in "The Business of Municipalities and Private Corporations Compared," gives $106.73 as a moderate estimate of the annual cost per arc. He says:

"The electrician's report shows that the city has been selling light for from 25 per cent to 50 per cent less than the cost of manufacture. Members of the electric light department admitted they could not run economically for less than $35,000 per year, but they wanted $45,000. Under our contract with the private company we light the same number of lamps and more hours per year for $15,654, a saving of $20,000 per year, figuring operating expenses only. Information from another source makes these figures $42,000 and $14,326 respectively. Statements from the light department show that if proper attention had been given to repairs of lamps at least $2,000 in coal would have been saved. Hardly a joint in our whole forty-five mile circuit is soldered or wrapped; they are simply twisted together. There is no estimate of the enormous loss of current over such loose joints, and yet it has been so for sixteen years."

The following story shows how this plant was made to serve the private ends of the politicians: A mayor who was a candidate for re-election attended a dance given by a local lodge. Noticing how brilliantly the hall was lighted with electric lamps, the mayor said, "How much do you boys pay for these lights?" He was told $35 per month. "I will do it for $10," replied the mayor.

Municipal Markets In Berlin.

Municipal ownership, or municipal trading, as it is termed in England, has had several hard jolts of late. The most recent blow was reported last week from Berlin, Germany, the mayor of which city declares that owing to the lower prices at which the department stores are now selling foodstuffs the municipal market halls in Berlin are being operated at a loss. The question of leasing to private concerns these halls, of which there are fifteen in Berlin, is being seriously considered.—Dry Goods Economist.

The "pure food law" is designed by the government to protect the public from injurious ingredients in both foods and drugs. It is beneficial both to the public and to the conscientious manufacturer. Ely's Cream Balm, a successful remedy for cold in the head, nasal catarrh, hay fever, etc., containing no injurious drugs, meets fully the requirements of the new law, and that fact is prominently stated on every package. It contains none of the injurious drugs which are required by law to be mentioned on the label. Hence you can use it safely.

WOOD AND COAL.

An Alarming State of Affairs

are to come if you persist in buying poor coal—fire goes out, money goes out, house gets cold and you have to run for coal at all sorts of inopportune times, and wear out the coal hod bringing it in, and without getting warm. If you buy the Lehigh Coal we sell you'll have a fire that lasts and gives the heat you need.
